

# Outdoor Adventure: Bracket Fungi

By ScienceAdventureClub.com

Sketch a picture of a bracket fungi that you found on your walk.

Is your bracket fungi growing on a dead tree, or alive? \_\_\_\_\_

What kind of tree is it growing on? \_\_\_\_\_

Is the fungi the same thickness throughout? \_\_\_\_\_

\_\_\_\_\_

What color is it on top? On bottom? \_\_\_\_\_

What do you think the fungus eats? \_\_\_\_\_

Try scratching the underneath part of the fungus. Does a "bruise" appear? \_\_\_\_\_
